

ADVANCE NEWS : THE IOTA AND THE RETURN OF CHRIGEL MAURER

Photo: Thomas Senf

The new top of the range EN B Iota from Advance only weighs 4.45 kg in size 23, thanks to computer assisted structural optimization of the weight. This wing, designed for flying distance, is made entirely from the new fabric Skytex 32, from Porcher Sport.

You'll find a lot of interesting information about the new technology used On the manufacturer's website. Amongst others, Advance have integrated their own SharkNose system called the 'Air Scoop':
